Introduction to Info Source

Info Source: Sources of Federal Government and Employee Information provides information about the functions, programs, activities and related information holdings of government institutions subject to the [Access to Information Act](#) and the [Privacy Act](#). It provides individuals and employees of the government (current and former) with relevant information to access personal information about themselves held by government institutions subject to the *Privacy Act* and to exercise their rights under the *Privacy Act*.

The [introduction](#) and an [index of institutions](#) subject to the *Access to Information Act* and the *Privacy Act* are available centrally.

The *Access to Information Act* and the *Privacy Act* assign overall responsibility to the President of Treasury Board (as the designated Minister) for the government-wide administration of the legislation.

Background

The Port of St. John's is one of North America's most modern and accessible supply and service centres. It is the location of Newfoundland and Labrador's primary and most advanced container terminal; the primary offshore energy supply and service centre on the East Coast of Canada; and is a destination of choice for the international cruise ship industry.

The Port of St. John's is one of the most active fish-handling ports in the province; it has evolved from the historic fishery to become a strategic transportation hub and powerful economic engine. Through its partnership networks, St. John's operates as one of the leading ports on the east coast of North America and provides: a strategic location close to shipping lanes and resources; a highly specialized local workforce and business community; business sectors which include container, ro/ro, dry bulk, liquid bulk and general cargo; a comprehensive distribution network; excellent repair and maintenance facilities; extensive storage capabilities for water, fuel, synthetic and chemicals; an efficient transportation system; a naturally sheltered, ice-free port; and greater access, egress, flexibility and service than ever before.

The St. John's Port Authority was established pursuant to Section 8 of the [Canada Marine Act](#) which received Royal Assent on the 11th day of June 1998 and came into force with respect to Port Authorities by letters patent issued on the 1st day of May, 1999. Therefore, the St. John's Port Authority is a Canadian Port Authority and an agent of Her Majesty in right of Canada within the framework of the *Canada Marine Act*.

The Authority is governed by a Board of Directors, and reports to Parliament through the Minister of Transport. The Board of Directors is comprised of four representatives nominated in consultation with port users, as well as one representative appointed by each of the Government of Canada, the Province of Newfoundland and Labrador, and the City of St. John's. A Chief Executive Officer and a management group are responsible for port operations.

For information Port of St. John's and its history, please click [here](#).

Responsibilities

The SJPA is a financially self-sufficient federal agency responsible for administering the Port of St. John's in the capital city of Newfoundland and Labrador (NL). The SJPA operates with full commercial discipline, and reinvests all earnings generated from activities into port infrastructure.

Mandate

Under the 1995 National Marine Policy, 19 major Canadian ports were deemed vital to Canada's domestic and international trade. These 19 ports were designated Canada Port Authorities (CPAs) under The *Canada Marine Act* which received Royal Assent on June 11, 1998. Canada Port Authorities were created to operate particular ports on behalf of the Government of Canada. In certain cases, CPAs possess the power to engage in activities related to shipping, navigation and transportation of passengers and goods. They may also be given Crown land to operate and manage, but not to own. They may, however, acquire and own land in their own name. CPAs are required to be self-sufficient and fund their operations through the revenues that they generate. Under Section 25 of the *Canada Marine Act*, CPAs are not eligible for federal funding, other than grants of general application or in the case of emergencies. The mandate of the St. John's Port Authority is to provide reliable, economic and efficient port services for the purposes of supporting Canadian trade, fostering regional economic development, and serving NL's distribution requirements. To that end, the Authority partners with the private sector, governments, and other stakeholders in developing port infrastructure and services and promoting the use of facilities.

Our Role

The role of the SJPA is to facilitate and expand the movement of cargo and passengers through the Port of St. John's, provide facilities, services, and technologies that are competitive, safe, commercially variable, dependable and customer oriented and to operate with broad public support in the best interests of Canadians.

Our Vision

To create a strategic gateway and world class marine supply and service centre and to build a solid, secure, internationally recognized platform for commerce and trade for the benefit of the province.

Our Goals

Guided by sound business practises, a well-run port is an engine for a strong economic future. The SJPA strives to identify strategic ideas and implement them as part of our ongoing business development. Our goals include to:

- Invest in infrastructure development that benefits our partners and users.
- Respond in a strategic and timely manner to changing market conditions and industry advances.
- Enhance the port's operational capabilities to improve market access.
- Promote provincial, national and international partnerships.
- Generate profitable economic activity and meaningful employment for Newfoundlanders and Labradorians.

Institutional Functions, Programs and Activities

Commercial Operations

The St. John's Port Authority Commercial Operations plays a crucial role in establishing and sustaining the Port's reputation based on its mission and in ensuring that the Port remains an important leader in the development, marketing and management of trade and transportation, commitment to sustainable development, and role as economic development agent for the local, regional, and national economy.

Business Development

Description: Information relating to St. John's Port Authority growth through capitalization, future planning, and overall policy development. Includes information on identifying and securing new business opportunities; building and maintaining effective customer relationships; developing and executing business strategies to achieve quantified objectives, and developing and executing the SJPA's marketing and public relations strategy, land use plans, development projects and inquiries.

Document Types: Land use plans, Business Plan, contracts, proposals, maps, marketing material, nautical charts, press releases, market studies, general correspondence.

Record Number: STJPA PTD 095

Port Operations

Pursuant to the *Canada Marine Act*, and Schedule "A" and "B" of its Letters Patent, Port Operations is responsible for performing all activities related to the operations of the Port.

Cargo Handling

Description: Includes records relating to the arrival and departure of ships, inward/outward reports, cargo manifests including total tonnage reports, fees such as harbour dues and wharfage based on vessel tonnage, statistical information including container, trailer, autos, break-bulk totals landed in the port, storage and transfer of cargo and commodities, transportation, and related subjects.

Document Types: Statistical reports, manifests, general correspondence.

Record Number: STJPA CRH 005

Terminal Operations

Description: Information relating to container terminal activities such as cargo and commodities handled in the port, including total quantity and individual and total weights. All information relating to offshore supply vessels including vessel movements and cargo loaded and unloaded, commercial fishing activity including fishing vessel movements and total weight landed.

Document Types: Leases, statistical reports, policies and procedures, general correspondence.

Record Number: STJPA TRO 140

Port Infrastructure

The St. John's Port Authority's Technical Services Department is responsible for the Port's redevelopment plans of existing infrastructure at Ocean terminals, managing the SJPA property holdings at the engineering level, production, maintenance and upgrades to all SJPA properties and for monitoring the capital projects located on Port property.

Engineering

Description: Includes information relating to port facilities and infrastructure, including wharves, buildings, harbour waters, mechanical and electrical equipment, underground services and fendering systems.

Document Types: Includes historical records, engineering plans and specifications, professional services and construction contracts, tender documents, licences, agreements, easements, proposals, legal surveys, maps, nautical charts, structural investigations, progress reports and payments, inspection reports, and general correspondence.

Record Number: STJPA ENG 025

Environmental Stewardship

The Port of St. John's' role in environmental stewardship is to ensure that compliance with environmental laws and regulations is upheld in the conduct of marine and land operations. The Port's environmental stewardship ensures that all steps are taken if or when an environmental incident occurs, and supervises the conduct of environmental assessments that are required before implementing new projects.

Environmental Services

Description: Information relating to environmental assessments, screenings, monitoring programs, and projects.

Document Types: Includes environmental assessment, reports, site specific audits, screening reports, policies and procedures, contract documents, monitoring reports, statistical information, and general correspondence.

Record Number: STJPA EVS 035

Harbour Master and Port Security

Harbour Master and Port Security is responsible for marine traffic management within the limits; and enforcement of regulations as a port authority. The Authority's Terminals provide all the necessary shore services required for international and coastal trade, including Canada Customs and Immigration, shipping agents, stevedoring companies, and tugs.

Harbour and Port Security

The Harbour and Port Security activities encompass marine security initiatives; Port Credentialing in relation to the production and issuance of passes for personnel and vehicles that enter the Port's premises; dangerous goods inspection in conjunction with Transport Canada for the inspection of sea containers registered as containing dangerous goods; and the North American Security Perimeter, Operation Safe Commerce Program which is an horizontal security initiative carried out in partnership with the U.S.A Department of Transportation.

Harbour Operations

Description: Information relating to vessel traffic movements, vessels arrivals and departures, as well as intra-port activity. Information with regard to vessel particulars, safe and secure operation and emergency preparedness and planning. Information on vessel pollution, response to vessel pollution and related subjects.

Document Types: Statistical reports, policies and procedures, emergency plan, memoranda of understanding, port security plan, and general correspondence.

Record Number: STJPA HRO 050

Internal Services

Internal services constitute groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are management and oversight services, communications services, legal services, human resources management services, financial management services, information management services, information technology services, real property services, materiel services, acquisition services, and travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Acquisition Services

Acquisition services involve activities undertaken to acquire a good or service to fulfill a properly completed request (including a complete and accurate definition of requirements and certification that funds are available) until entering into or amending a contract.

- [Procurement and Contracting Class of Record](#)
 - [Professional Services Contracts Personal Information Bank](#)

Communications Services

Communications services involve activities undertaken to ensure that Government of Canada communications are effectively managed, well-coordinated and responsive to the diverse information needs of the public. The communications management function ensures that the public—internal or external—receives government information, and that the views and concerns of the public are taken into account in the planning, management and evaluation of policies, programs, services and initiatives.

- [Communications Class of Record](#)
 - [Internal Communications Personal Information Bank](#)
 - [Public Communications Personal Information Bank](#)

Financial Management Services

Financial management services involve activities undertaken to ensure the prudent use of public resources, including planning, budgeting, accounting, reporting, control and oversight, analysis, decision support and advice, and financial systems.

- [Financial Management Class of Record](#)
 - [Accounts Payable Personal Information Bank](#)
 - [Accounts Receivable Personal Information Bank](#)

Human Resources Management Services

Human resources management services involve activities undertaken for determining strategic direction, allocating resources among services and processes, as well as activities relating to analyzing exposure to risk and determining appropriate countermeasures. They ensure that the service operations and programs of the federal government comply with applicable laws, regulations, policies and plans.

Information Management Services

Information management services involve activities undertaken to achieve efficient and effective information management to support program and service delivery; foster informed decision making; facilitate accountability, transparency and collaboration; and preserve and ensure access to information and records for the benefit of present and future generations.

- [Access to Information and Privacy Class of Record](#)
 - [Access to Information Act and Privacy Act Requests Personal Information Bank](#)

Information Technology Services

Information technology services involve activities undertaken to achieve efficient and effective use of information technology to support government priorities and program delivery, to increase productivity, and to enhance services to the public.

- [Information Technology Class of Record](#)
 - [Electronic Network Monitoring Personal Information Bank](#)

Management and Oversight Services

Management and oversight services involve activities undertaken for determining strategic direction and allocating resources among services and processes, as well as those activities related to analyzing exposure to risk and determining appropriate countermeasures. They ensure that the service operations and programs of the federal government comply with applicable laws, regulations, policies or plans.

- [Internal Audit and Evaluation Class of Record](#)
 - [Internal Audit Personal Information Bank](#)

Materiel Services

Materiel services involve activities undertaken to ensure that materiel can be managed by departments in a sustainable and financially responsible manner that supports the cost-effective and efficient delivery of government programs.

- [Materiel Management Class of Record](#)
 - [Vehicle, Ship, Boat and Aircraft Accidents Personal Information Bank](#)

Real Property Services

Real property services involve activities undertaken to ensure that real property is managed in a sustainable and financially responsible manner, throughout its life cycle, to support the cost-effective and efficient delivery of government programs.

- [Real Property Management Class of Record](#)
 - [Real Property Management Personal Information Bank](#)

Travel and Other Administrative Services

Travel and other administrative services include Government of Canada travel services, as well as those other internal services that do not smoothly fit with any of the internal services categories.

MANUALS

- St. John's Port Authority Port Emergency Plan

Classes of Personal Information

In the course of conducting the programs and activities of the St. John's Port Authority, categories of personal information may be accumulated which are not contained in the specific information banks described above. Such personal information includes: request for information, expressions of public support, offers of services and complaints. This information is stored as part of the general subject files, where records are not normally retrieved by name of individual or other personal identifier.

This form of personal information is normally retrievable only if specifics are provided concerning the subject matter, related program activity, as well as the date the information was received by the St. John's Port Authority and the name of the person to whom it was addressed. The retention periods for these types of personal information are controlled by the records disposal schedules of the general subject files in which they are stored.

Additional Information

The Government of Canada encourages the release of information through requests outside of the ATIP process. You may wish to consult the [St. John's Port Authority's completed Access to Information \(ATI\) summaries](#) for more information. To make an informal request, contact:

For additional information about the programs and activities of the St. John's Port Authority, please contact:

St. John's Port Authority
1 Water Street
P. O. Box 6178
St. John's, NL A1C 5X8

Telephone: 709-738-4782
Facsimile: 709-738-4784
Toll Free: 1-888-277-0319
info@sjpa.com

www.sjpa.com

Please [click here](#) for information on formal access procedures under the provisions of the [Access to Information Act](#) and the [Privacy Act](#). How to make a formal ATIP request:

Mail your letter or Access to Information Request Form (*Access to Information Act*) or Personal Information Request Form (*Privacy Act*), along with any necessary documents (such as consent or the \$5.00 application fee for a request under the *Access to Information Act*) to the following address:

St. John's Port Authority
Access to Information and Privacy Coordinator
1 Water Street, P. O. Box 6178
St. John's, NL A1C 5X8

Please note: Each request made to the St. John's Port Authority under the *Access to Information Act* must be accompanied by an application fee of \$5.00, cheque or money order made payable to the St. John's Port Authority.

Reading Room

In accordance with the *Access to Information Act* and *Privacy Act*, an area on the premises will be made available should you wish to review materials on site. The address is:

St. John's Port Authority
1 Water Street, 2nd Floor
St. John's, Newfoundland and Labrador
